

A VIRTUAL PRAYER GATHERING  
**PREPARING FOR EARTH DAY**

*What on earth? • Where on earth? • Who on earth?*

Whatever our address, we all have the same home, and our home is in peril. She is speaking to us clearly and calling us to action. Her voice has been loud and compelling during this year of pandemic, and she has given us a glimpse of what is possible. Are we paying attention? Let us spend an hour together to pray for the healing of our environment and to discern our own participation in this sacred quest. Together we will restore the Earth in solidarity with the mission of [EarthDay.org](http://EarthDay.org) to diversify, educate and activate the environmental movement worldwide.

You are invited to share in the preparation for this gathering by sending a high resolution photo from your home space on our broken, beautiful planet. Include no more than five words of description or blessing if you wish. These photos will become part of a video reflection during our virtual prayer gathering.
